

October 25, 2012

Dear Seneca Soundwaves,

A few of you recently performed at the M.M. Ewing CCC for my parent's, Nate and Joan's 60th wedding anniversary. Let me start by saying what talented ladies you are. You are all blessed with such beautiful voices! I could listen to you all day. You all harmonize so well together and the sound is mesmerizing and heartfelt. I know some of us shed a few tears. Don't ever stop! You bring so much joy to people and that is a gift☺

You made my parents day very special and we thank you for taking time out of your day to make that happen. I can remember my mother singing around the house and I never realized how much I would miss that. Even though she doesn't seem like she's comprehending, I do think she heard the music and I know she enjoyed it in her own way. My father has never really been a big music fan but he said how much he enjoyed your performance and how much it meant to him.

60 years is a long time and I know my parents didn't plan on spending their Golden Years in a nursing home but its special events like their party that makes their days a little more enjoyable. Thank you for being a part of that.

We all enjoyed every moment and will take with us a wonderful memory.....
Thank you so much,

Ruth Walters & family
